Dear Admiral Turner!

I am 13 years old and am very interested in our government and the people who run it.

For a long time I have been very interested in the CIA and its importance to our security. I'm real glad you took over as director and are setting new policies to restore faith in the Agency.

What would you suggest for a young person to prepare for a career in intelligence? I think it would be a rewarding life.

I hope you will write me and if you can would you please send me a signed picture? I want to have a Collection of great Americans. Thank you and good luck.

Enclosed are various requests for photographs,  
autographs, etc., which I have had autopenned  
by D/Pers.

Chris
